ERRATUM

**Erratum to “*Geoemyda silvatica*, an enigmatic turtle of the Geoemydidae (Reptilia: Testudines), represents a distinct genus”
[Org. Divers. Evol. 6 (2006) 151–162]**Peter Praschag^a, Christian Schmidt^b, Guido Fritzsche^c, Anke Müller^b,
Richard Gemel^d, Uwe Fritz^{b,*}^aFranz-Riepl-Gasse 24, 8020 Graz, Austria^bMuseum of Zoology (Museum für Tierkunde), State Natural History Collections Dresden, Königsbrücker Landstr. 159, 01109 Dresden, Germany^cInterdisciplinary Centre for Bioinformatics (IZBI), University of Leipzig, Kreuzstr. 7b, 04103 Leipzig, Germany^dNaturhistorisches Museum Wien, Burgring 7, 1010 Wien, Austria

Due to an unfortunate error in type-setting, part of a species diagnosis is incorrect.

On p.156, under the heading

Geoemyda spengleri (Gmelin, 1789)—type species of *Geoemyda* Gray, 1834

read:

Tail: Long in both sexes; very long in males, gradually narrowing toward tip (moderately long in males, abruptly narrowing after cloaca; tail very short in females).

We apologize for any inconvenience caused.
